

# Quality assurance

Global Laboratory Services. **Discover. Experience.**

Building on 20 years of experience, Eurofins Medinet offers the synergy of integrating a full spectrum of global laboratory services to support pharmaceutical drug development. Eurofins Medinet offers a full range of safety parameters and biomarkers, genomic testing, microbiology testing and highly specialized bioanalytical services. We offer a wealth of experience and scientific accomplishment to fulfill our customer's analytical needs throughout every phase of drug development.

## Exceeding the standards

To us quality standards are the basic requirement to start from. Eurofins Medinet is committed to providing the highest quality services, accurate, timely results, and expert advice from our highly qualified team of experienced scientists. As data integrity is of paramount importance, we continually monitor both data quality and our laboratory operations to ensure that the highest standards are maintained.
