

# GENOMICS

## About Eurofins Medinet

Over the last 20 years Eurofins Medinet has been serving the pharmaceutical industry with a full central laboratory package. In addition, we also provide comprehensive support in genomic testing, microbiology testing in clinical trials and highly specialized bioanalytical services.

We offer a wealth of experience and scientific accomplishment to fulfill your analytical needs throughout every phase of drug development.

### Genomic services for your clinical trial

- RNA/DNA Preparation
- PCR and Real Time PCR
- Human Gene Expression Analysis
- DNA Sequencing
- Microsatellite and SNP Genotyping
- HLA Typing
- Pharmacogenomics
- Viral Load Monitoring

*Eurofins Medinet provides routine genomic services at their central laboratory facilities and can offer specialized services at their genomic laboratory.*
